The Standard Operating Procedure (SOP) for implementation of Project Works

Background

AHSEC has introduced project works on few subjects since 2018-19 academic session keeping in view that project based learning helps students get involved in their learning. Through project based learning, students get to know to identify problems and their solutions and as such gain necessary knowledge to find plausible solutions, which give successful outcomes.

Project based learning for the students of H.S. 1st and 2nd year is only possible with the proper guidance of the teachers. A teacher needs to guide his/her students in designing projects based on their abilities, keeping in view that the project work builds their confidence. So, involvement of both the teachers and their student's are most important for accomplishing a project- individually or in a group whichever is convenient for a particular teacher.

Ready reckoner to implement the Project Works

2. The concerned teacher must provide guidance to the students in selection of project and its preparation and completion.

4. The project should be completed at least one month prior to the final examination.
